REFIT LOG

Ocean Pure was built in 1993 by Gulluk shipyard in Bodrum for an Austrian industrialist and named MISS AUSTRIA. After spending many years sailing the Mediterranean under both US and French flag, she was refitted in Italy according to RINA class standards. Her rigging was refitted by the Brooklyn Boat Yard in the US. She was later sold to the landlord of an upscale hotel in Bozburun (Sabrina's House) and renamed MISS SABRINA. She was occasionally used for daily luxury cruises for a select group of guests. The Owner chose to keep her anchored and on display in front of the hotel due to her elegance and the way she sat on water!

The Previous Owner bought her in 2017. It was decided to fully rebuild her from the keel up in 2020. In addition to all new equipment, 90% of the wood was replaced. Emerging from the refit last year, she presents in as new condition.

The refit was meticulously planned and the Owner has documented every step of the rebuild.

We are happy to provide pictures, as well as building plans and structural drawings.
